SUMMARY

Full-stack software engineer with hands-on experience across the MERN and .NET stacks, delivering production-style web applications with secure authentication, relational and NoSQL data modeling, and cloud deployment. Additional experience building native iOS applications and interactive Unity simulations in C#. Strong foundation in MVC architecture, RESTful API design, and data integrity. Seeking to apply hands-on engineering skills in a fast-paced product team.

TECHNICAL SKILLS

- **Programming Languages:** JavaScript | CSS | HTML | Python | C# | Swift
 - **Databases:** MySQL | MongoDB | PostgreSQL | Firebase | Entity Framework Core
 - **Frameworks and Libraries:** React | Django | Express.js | Node.js | ASP.NET Core
 - **Tools:** Git | GitHub | JWT Auth | Cloudinary | Unity | Postman | REST APIs | Xcode
 - **Soft Skills:** Time Management | Team Collaboration | Problem Solving | Critical Thinking
 - **Languages:** Arabic (Native), English (Fluent)
-

SOFTWARE ENGINEERING EXPERIENCE

Software Engineering Immersive Fellow, General Assembly, Bahrain

Jun 2025 - Sep 2025

- Completed a 480+ hour full-stack program, shipping 4 production-style apps across MERN and Django stacks under agile sprint deadlines.
 - Collaborated in pair-programming and agile team settings, participating in daily standups, code reviews, and iterative sprint planning.
-

PROJECTS

- Course Management System | ASP.NET Core, EF Core, MVC, Azure, JWT
 - Built a certification-tracking app in ASP.NET Core MVC with a normalized EF Core schema enforcing data integrity; deployed live on Azure.
 - BrewViews, Cafe Review Platform | React, Node.js, Express, MongoDB, Cloudinary, JWT
 - Built a MERN review platform with JWT auth, Cloudinary image uploads, and a 4-model MongoDB schema; React front end updates content without page reloads.
 - Horizon, Social Travel Website | Django, PostgreSQL, AJAX, jQuery
 - Built a Django/PostgreSQL social site with AJAX-driven likes/comments, removing full-page reloads for faster interactions.
 - Tkaffal, iOS Donation App | Swift, Xcode, Firebase, Firestore
 - Shipped a native iOS app connecting donors to NGOs, using Firebase Auth and real-time Firestore sync across devices.
 - Oops, No Evidence, Co-op Stealth Game | Unity, C#
 - Built a 4-player co-op stealth game in Unity with physics-based interactions and networked multiplayer state handling.
-

EDUCATION

- **BSc, Computer Programming,** Polytechnic Bahrain, Bahrain
- **Software Engineering Immersive Program,** General Assembly, Bahrain

Exp. Jun 2027
Sep 2025
